

## Route Sheet F Instructions

The following applies only to Route Sheet F and no other Route Sheets on Leg 2. There are 29 identified capitals in the pages attached. None has an assigned value; these are progressive with cumulative points awarded based upon the number of capitals obtained.

Please consult this grid for the values for Leg 2:

Use this handy grid to determine the value of the capital bonus locations. You may obtain the capitals in any order. The points are progressive; obtaining 3 capitals results in the points for capitals 1, 2 and 3, a total of 2,400 points. To make scoring easier in your rally pack, place the Bonus ID in the appropriate column in the order you obtain them; then record the value in the space provided in the Bonus Location Description.
